EDUCATION

Master of Computer Applications
KR Mangalam University
2023 - 2025

Bachelor of Computer Applications
Om Sterling Global University
2020 - 2023

12th
Vidya Bharti Public School
2018 - 2020

TECHNICAL SKILLS

- Power Bi
- SQL
- Excel
- Python
- HTML
- CSS

LANGUAGE

- English
- Hnidi

CAREER OBJECTIVE

Data analytics enthusiast skilled in Power BI, Excel, Python, and SQL, dedicated to turning complex data into actionable insights. Driven by a passion for analytics and continuous learning, seeking an entry-level data analyst role to apply and expand my skills.

PROJECTS

H R Dashboard

Oct/2024 - Oct/2024

Technology: PowerBi

- Developed a comprehensive HR dashboard in Power BI to streamline employee data tracking and visualization, providing HR professionals with a powerful tool for informed decision-making. The dashboard utilizes complex parameters that allow detailed drill-down capabilities, enabling HR to analyze data at multiple levels.

Car Price Predictor

Dec/2023 - Dec/2023

Technology: Python, Machine Learning

- Built a Car Price Predictor system using Python and machine learning to estimate car prices based on key attributes such as model year and fuel type (CNG, petrol, diesel). This project, completed in one month as part of my post-graduation studies, leverages data preprocessing and model training techniques to enhance prediction accuracy.

SummarEase

Apr/2024 - Apr/2024

Technology: HTML, JS, CSS, PHP, SQL

- This project involves creating a web application that provides both text summarization and translation features, using HTML, JavaScript, CSS, PHP, and the Laravel framework. Designed to simplify and enhance users' text-processing needs, the application enables users to input lengthy text to receive a concise summary and translate it into multiple languages. Laravel handles backend data processing with security and scalability, while JavaScript ensures real-time interactivity for a seamless user experience.
